3 USE CASE DEVELOPMENT PRIORITIES

3.1 Package A: Stacey

Use Case ID	Main Functionality	Use Case IDs of use case(s) invoked by this use case
A0200	news message created, then details displayed on the user's profile	
A0300	adding and updating research output and displaying a message under news on users profile	A0200
A0400	search executed and report shown as screen output	
A0100	event message is created or updated and displayed on the user's profile	
A0500	opens the message link in the user profile to display the entire message contents	

3.2 Package B: Chesney

Use Case ID	Main Functionality	Use Case IDs of use case(s) invoked by this use case
B0100	This use case allows for maintenance of all the users' accounts within the system.	B0300, B0200
B0200	This use case allows a researcher to be assigned to a supervisor.	
B0300	This use case will maintain the funding of an independent researcher or researcher.	
B0400	This use case allows a report to be created to show all supervisors and their relative researchers.	
B0500	This use case allows a report to be created to show all IRs.	

3.3 Package C: Jeffrey

Use Case ID	Main Functionality	Use Case IDs of use case(s) invoked by this use case
C0100	Adding and updating a progress report for each user showing a percentage of how far they are with each of their research outputs.	
C0200	Adding, updating and deleting of available	A0200

	grant/bursary agencies and their details are stored in a database.	
C0300	Adding, updating and deleting a list of accredited journals which is stored in a database.	A0200
C0400	Adding, updating and deleting a list of conference proceedings which is stored in a database.	A0200
C0500	The user can generate graphs depicting the difference in various statistics from this and previous years.	
C0600	The user can generate a list of all the available funding agencies with the grants/bursaries they offer.
